

Skins on Fire

Agonizing, itching, burning and bleeding. Eczema in its worst stages. A raw sore from head to foot. Hair gone. Doctors and hospitals fail. Tried everything.

Cured by Cuticura

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and hospitals, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying every thing I heard of, I tried CUTICURA and after using three bottles of CUTICURA and CUTICURA SOAP, I feel myself cured at the cost of about \$5. I would not be without the CUTICURA REMEDIES in my house.

ISAAC H. GERMANN, Wernersburg, N. Y.

Burning and Itching

I was sick in the fall of 1888 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some doctors thought I might be salt rheum (eczema), and said they had never seen anything like it before. I received no help from any of them, or from any medicine that I could get hold of until I used your CUTICURA REMEDIES. After three weeks' use I was able to work, and kept getting better, until I am now entirely cured.

C. E. OSMEY, Tazewell, Va.

I have used the CUTICURA REMEDIES successfully for my baby, who was afflicted with eczema, and had such intense itching that he got no rest day or night. The itching is gone and my baby is cured, and is now a healthy, happy child.

A New Remedy for Rheumatism—Interesting Experiences with Hypnotism.

A new anti-rheumatic is proposed by a German hospital physician, at Frankfurt-on-Main, in dilithio-sulphate of soda, which he finds, after experimenting with it, to have the following advantages over ordinary salicylate of soda: It has a powerful action, the requisite dose is smaller; it has no bad effect on the stomach, heart or great vessels; it does not cause collapse nor humming in the ears.

While recognizing the desirability of further experiment in the matter, Dr. Lindenberg confidently hopes that the remedy will be of avail in the often long and tedious treatment of some rheumatic affections.

Cures by Hypnotism.

Science gives the following interesting statistics of patients treated by means of hypnotism at the clinic founded two years ago for that purpose in Amsterdam: There were treated, in all, 414 patients (219 men and 195 women). Of these, only 15 could not be hypnotized; 217 entered a light stage of sleep; 135 entered a deeper stage, and 47 entered the somnambulic stage, characteristic of the best hypnotic subjects. There were 361 of the 414 afflicted with various kinds of nervous troubles, 68 as neuralgias and pains, 60 as mental diseases, 40 as hysterical affections and 29 as organic affections.

In general, the effects of the treatment are indicated by the following figures: No effect in 71 cases (30 per cent.), a slight or passing improvement in 92 cases (36 per cent.), a distinct and permanent improvement in 98 cases (77 per cent.), and a cure in 100 cases (38 per cent.). The disposition in the number of nervous and non-nervous cases makes a fair comparison of the results in the two classes impossible. Among the nervous diseases those classified as neurotic show a very favorable result, 33 per cent. being cured, and 20 per cent. permanently benefited. Hysterical and neurasthenic affections show nearly as high percentage, though the absolute numbers are here much smaller. Diseases classified as organic naturally show the very minimum of success in treatment.

A French physician, M. Clement, has treated ingrowing toe nails by means of tin foil such as is used for wrapping chocolate, etc., and claims good results. He simply introduces a single or double thickness of tin foil between the nail and the ulcerated tissues beneath by the aid of an instrument with a thin blade. The tin foil is kept in place by wax, which is molded over the parts.

Short Lunches Fashionable—A Successful and Enjoyable Innovation.

The fashionable dinner of the day is growing shorter. Two years ago a dinner took from three to four hours, and the participants in the encounter generally came away worked. Now all that is changing, and though it has not got to the point yet—indeed it still far from it—the dinner is going back to an affair of comparative shortness and simplicity. Mrs. Whitney, the cabinet lady—is supposed to have inaugurated the change. A correspondent of the Arionist says that when every other woman in Washington was giving two and twelve course lunches, lasting from two to three hours, Mrs. Whitney observed the error, the senselessness, the ostentation, the vulgarity of the custom, and set about giving a series of lunches of not more than four courses and lasting not over an hour. They made a stir—when people are bored to death and have nothing to think about almost anything will make a stir. The pebble dropped in the rippleless pool makes a fine big stir, lasting for a long time. Mrs. Whitney's public made a stir in the social pool which is lasting, yet, and moving across the face of the pool in ever widening rings.

The short lunches proved a success. They made the participants realize what a tremendous undertaking a "three hours' lunch" was. The long lunch was, with them, a matter of fashion. Would to heaven, thought they, dinners could be so curtailed. Dinners had reached such a stage that only millionaires could afford to give them. They lasted on toward midnight. They cost a fortune in flowers, food and wine.

Just what inaugurated the short dinner no one knows, but they had a heavy run before Lent. Not only were the courses fewer, but they were served much more quickly. In fact, a good many of the dinners were hustled through somewhat unceremoniously. If you did not eat, your food when it was before you, as children are severely told to do by censorious elders, it was borne off by a lackey. This, however, made it possible to rise from an 8 o'clock dinner at 10. Then if the girl of your heart was present you had an hour's talk with her or two hours' intermittent talk with her, and did not give up the stalled ox and the snow-cold snicker for such a job!

Beside the shortness of its duration this dinner illustrates another change which has been gradually coming. Champagne was served with the soup, and kept up till the end. With the game meat Burgundy—at a warmer temperature than usual—Mr. McLeira and white port to finish up. Also another change—and this, among the anglicanisms, one of deadly importance—the hostess led the way in, leaving the host to follow later with a lady of his choosing. We are supposed not to have laws of precedence in this country, but if some lady enjoying a seat in one of the high places of this world is left to struggle in some remote about the end of a dinner procession she feels sorely aggrieved, and will make biting remarks about those people who she has the chance.

Don't forget the low rates to Chicago, St. Louis, Denver, Pueblo and Colorado Springs via the Great Rock Island.

During the last few years there has been a great rush of travel to the Pacific. It has seemed at times as if the entire population of the eastern and middle states was determined to settle in the broad interior of the great West. In fact, in some of the prettiest spots near the ocean, from San Diego northward to San Francisco, almost everybody has been interested in oranges and lemons at the rate of the passenger traffic.

But we did not intend to advertise California exclusively; we have another object in view.

Today, if there may be said to be a "boom" anywhere, it is in the New South. Texas, which is half a south and half a western empire, has felt the rising tide of business push and enterprise, and, as a consequence, people are looking to Texas as they never did before.

Are you going to Texas this spring?

Also, why not take advantage of the one fare round trip excursion rate via Santa Fe route to Fort Worth? Tickets on sale May 7 and 9, good 30 days; also on sale daily from May 8 to 28 inclusive, limited until June 3 for return.

This is a cheap rate, and for the big sale of the year, the Fort Worth Spring Palace, which will attract thousands of visitors from abroad.

Our double daily train service to Texas ("Lone Star Limited" and Galveston Express) speeds quick transit and excellent accommodations. Through Pullman sleepers and day coaches, Wichita to Fort Worth, Dallas, Houston, Galveston, and other principal cities, on night and day trains. The time from Wichita to Fort Worth is only a trifle over 15 hours; the rate, in dollars and cents, is \$11.50.

Persons wishing to go further than Fort Worth can purchase excursion tickets from that point to interior Texas towns.

For tickets and Pullman reservation apply at Douglas avenue union passenger station or union ticket office, 132 North Main street. W. D. MURDOCK, Passenger Agent.
